# LOVESTONE

Las piedras son, hoy por hoy, uno de los materiales estrella en la decoración de interiores. Con ellas, se consiguen espacios cálidos y confortables, en los que conviven tradición y modernidad. Nos recuerdan a los ambientes rústicos y campestres, sin embargo, con su evolución actual es posible crear zonas de lo más vanguardistas y sofisticadas. VIVES, lanza Lovestone una nueva colección, inspirada en una selección de piedras naturales, con diferentes acabados y formatos que se adaptan milimétricamente a las tendencias actuales.

*Stone, today is a key element in interior decoration as it gives a tone of warmth and comfort uniting tradition with modernity. It can create a space with a rustic and country feel whilst at the same time, thanks to the evolution in its design, the most vanguard and sophisticated room can be achieved. Vives launches Lovestone, a new collection inspired by a selection of natural stones with different finishes and sizes which can be adapted to the most modern and cutting-edge designs.*

## NATURAL

Las sensaciones que transmite la piedra con acabado natural son muy diferentes a las que pueden transmitir otro tipo de materiales. La superficie tiene un relieve regular y homogéneo y con un tacto agradable, esto hace que este material pueda ser utilizado, ya sea, en exteriores como en interiores.

*The sensation and tact that stone can transmit in its natural state is quite unique to any other material. Its even and homogenous finish with its agreeable tact make it perfectly suited for exterior as well as interior use.*

## LEATHER

Ofrece una textura similar a la piel, que transmite una percepción sensorial única al tacto por su belleza y finura. Su principal característica es su acabado mate, que lo convierte en una superficie suave y muy agradable, manteniendo una consistencia plena de color.

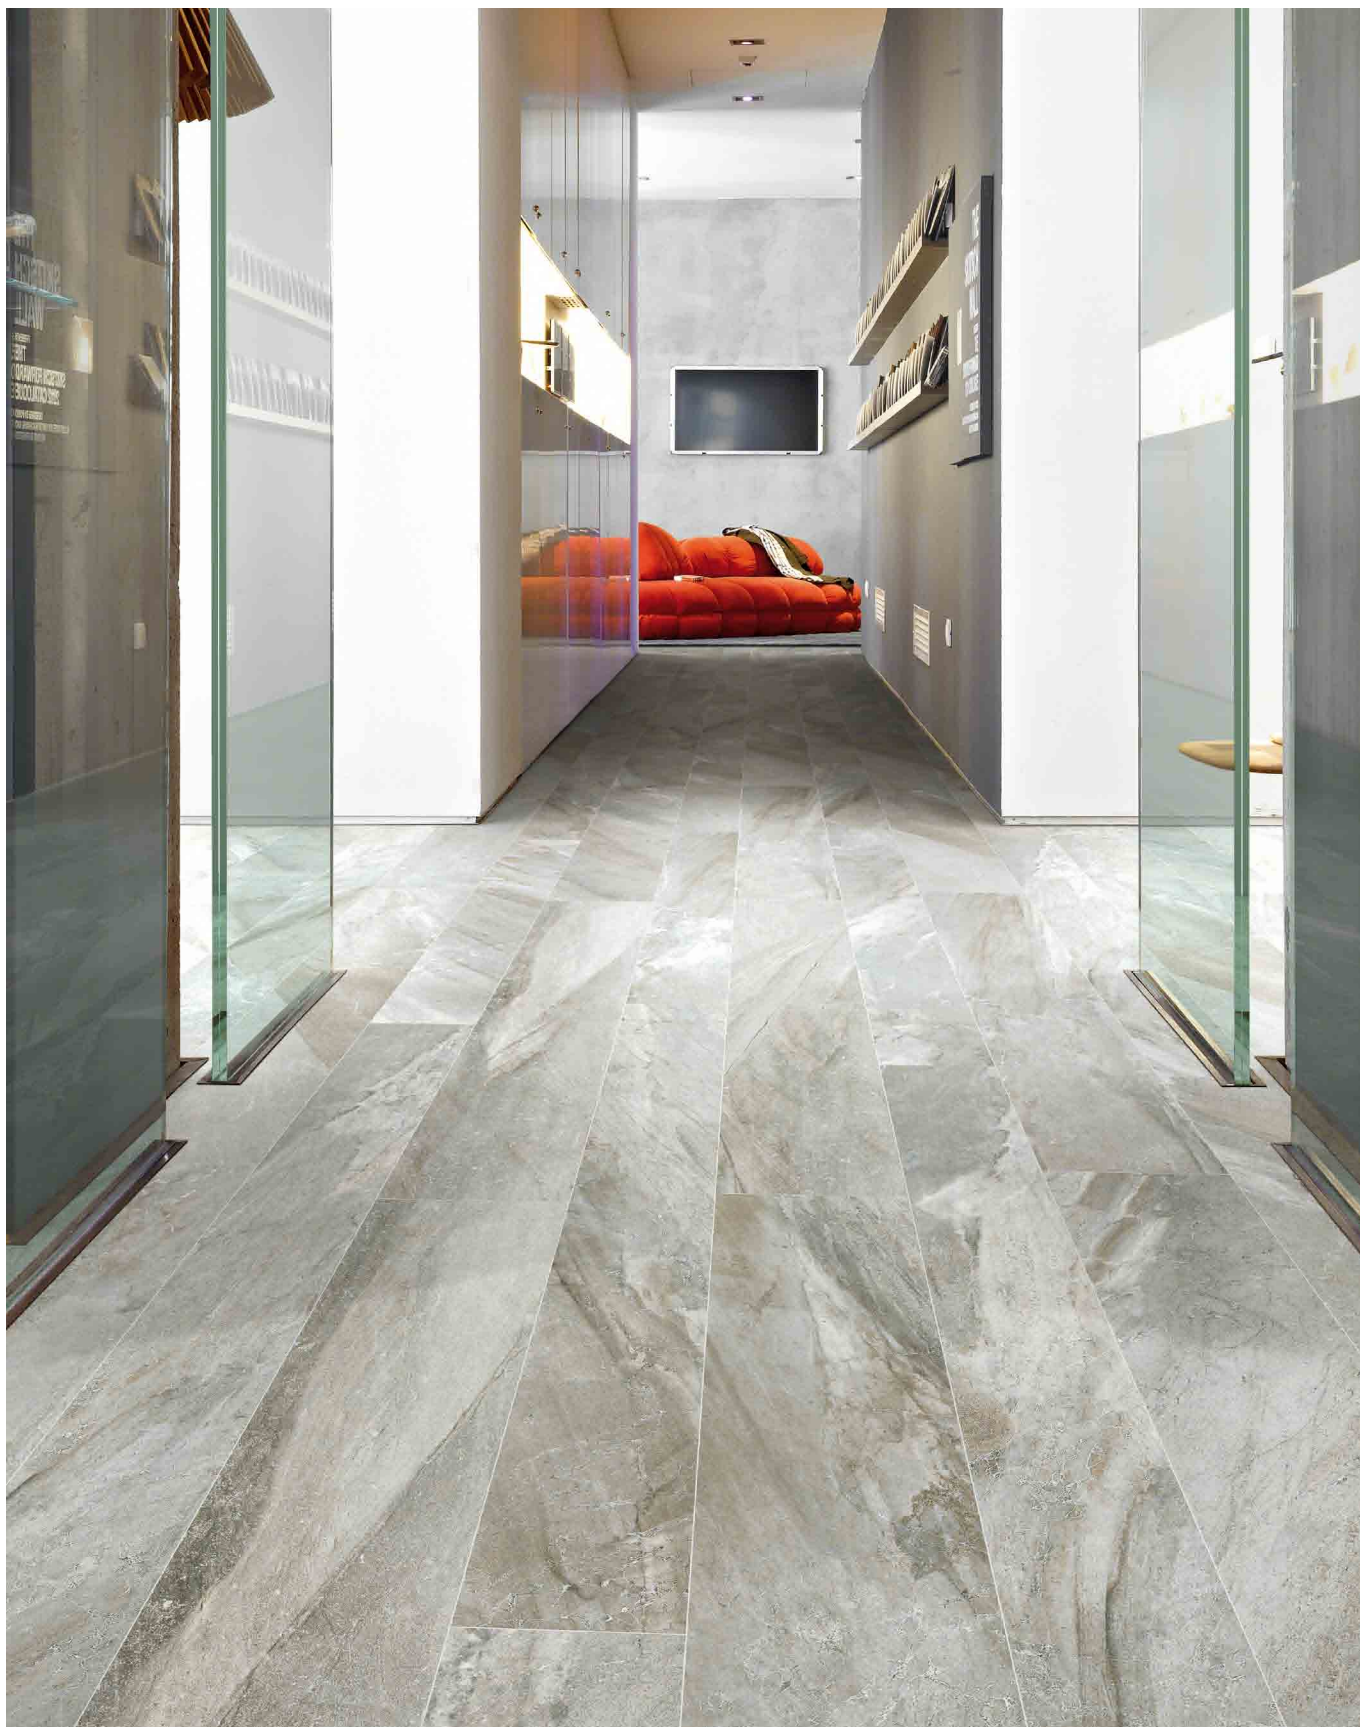

*Named Leather due to the similarity of the tiles' surface texture when touched, it transmits a sensation of beauty and elegance. Its mate finish is its main characteristic which results in a soft, warm surface finish with a consistent and uniform colour.*
